

Agricultural Marketing Service, USDA

§ 996.30

(c) *Segregation 2*. “Segregation 2 peanuts” means farmers stock peanuts with more than 2.49 percent damaged kernels or more than 1.00 percent concealed damage caused by rancidity, mold, or decay and which are free from visible *Aspergillus flavus*.

(d) *Segregation 3*. “Segregation 3 peanuts” means farmers stock peanuts with visible *Aspergillus flavus*.

§ 996.14 Person.

Person means an individual, partnership, corporation, association, any other business unit or legal entity.

§ 996.15 Positive lot identification.

Positive lot identification is a means, approved by the Inspection Service, of relating the inspection certificate to the lot covered so that there is no doubt that the peanuts in the lot are the same peanuts described on the inspection certificate.

§ 996.16 Producer.

Producer means any person in the United States engaged in a proprietary capacity in the production of peanuts for market.

§ 996.17 Quota year.

Quota year means the 12-month period beginning January 1 and ending December 31 of the same year for peanuts produced in Mexico and the 12-month period beginning April 1 and ending March 31 of the following year for Argentina and other countries, or other such periods as may be prescribed by the U.S. Customs Service.

§ 996.18 Secretary.

Secretary means the Secretary of Agriculture of the United States or any officer, employee, or agent of the United States Department of Agriculture who is, or who may hereafter be authorized to act in the Secretary's stead.

§ 996.19 Shelled peanuts.

Shelled peanuts means the kernels or portions of kernels of peanuts after the shells are removed.

§ 996.20 USDA.

USDA means the United States Department of Agriculture, including any officer, employee, service, program, or branch of the Department of Agriculture, or any other person acting as the Secretary's agent or representative in connection with any provisions of this part.

§ 996.21 USDA laboratory.

USDA laboratory means laboratories of the Science and Technology Programs, Agricultural Marketing Service, USDA, which chemically analyze peanuts for aflatoxin content.

§ 996.22 USDA-approved laboratory.

USDA-approved laboratory means laboratories approved by the Science and Technology Programs, Agricultural Marketing Service, USDA, that chemically analyze peanuts for aflatoxin content.

QUALITY AND HANDLING STANDARDS

§ 996.30 Incoming quality standards.

(a) All farmers stock peanuts received or acquired by a handler shall be officially inspected by the Inspection Service, and certified as to segregation, moisture content, and foreign material.

(b) *Moisture*. Domestic and imported peanuts shall be dried to 18 percent or less prior to inspection and to 10.49 percent or less prior to storing or milling; *Provided*, That Virginia-type peanuts used for seed shall be dried to 18 percent or less prior to inspection and to 11.49 percent or less prior to storing or milling.

(c) *Foreign material*. No handler or importer shall receive or acquire farmers stock peanuts for subsequent disposition to human consumption outlets containing more than 10.49 percent foreign material, except that peanuts having a higher foreign material content may be received or acquired if they are held separately until milled, or moved over a *sand-screen* before storage, or shipped directly to a plant for prompt shelling. The term *sand-screen* means any type of farmers stock cleaner which removes sand and dirt.
